At end-1H 2010, shareholders' equity constitutes DKK 9,366m – an increase of DKK 248m since year-end 2009. The change appears as net purchase of own shares of DKK 3m and profit for the period of DKK 251m.

The Committee of European Banking Supervisors (CEBS) included Sydbank in the group of 91 banks from the EU covered by the stress test.

The stress test uses three distinct macroeconomic scenarios. The scenarios do not express the current or expected trend in the economy but are designed to assess the resilience of the banking sector against an unexpected deterioration of macroeconomic conditions.

The CEBS has set the limit for passing the stress test at a core capital ratio of 6%. In the most adverse scenario Sydbank's core capital ratio at end-2011 is calculated at 13.2%. Sydbank is pleased with the outcome of the EU-wide stress test and the Group's individual results indicating

- great resilience to adverse economic developments in the period 2010-2011
- insignificant exposure to rising interest rates on government bonds and
- sufficient Tier 1 capital and capital base.

The outcome of the EU-wide stress test appears from Company Announcement No 06/10.

Regulation

Efforts to expand and tighten the regulation and supervision of banks are conducted nationally as well as internationally. The EU Commission and the Basel Committee are working on new and stricter requirements concerning liquidity, capital definitions, leverage ratios, impairment charges etc (CRD IV).

Via participation in working groups under the Danish Bankers' Association etc and in international quantitative impact studies (QIS) Sydbank is closely monitoring the developments in the scope and content of any future requirements and consequently it becomes possible for the Bank to affect the content.

Expiry of the government guarantee

On 1 June 2010 the Danish parliament passed legislation on the management of distressed banks after the expiry of the general government guarantee on 30 September 2010.

Under the new scheme distressed banks will be allowed to transfer continuing assets at their net realisable value to the Financial Stability Company. Any additional losses incurred on the resale of the assets are guaranteed by a new unit of the Guarantee Fund for Depositors and Investors. The capital of the new unit derives from guarantee commitments from the sector totalling DKK 3.2bn. Losses on these commitments will be covered by the sector.

After 1 October 2010 the Bank's payment of guarantee commission as well as its commitment to cover the losses of distressed banks will cease, an expected total of DKK 367m for the first nine months.

Clients

In 1H the number of Sydbank clients grew – a highly satisfactory trend. The influx of new clients has doubled compared with previously. The rise in the number of clients in 1H is equivalent to just under 2%.

Accounting policies

The Interim Report has been prepared in accordance with IAS 34 “Interim Financial Reporting” as adopted by the EU and in compliance with additional Danish disclosure requirements for interim reports. As a result of the application of IAS 34, the presentation is less complete compared with the presentation of an annual report and the recognition and measurement principles are in compliance with IFRS.

The accounting policies are consistent with those adopted in the 2009 Annual Report, to which reference is made.

The 2009 Annual Report provides a comprehensive description of the accounting policies applied.

The measurement of certain assets and liabilities requires managerial estimates as to how future events will affect the value of such assets and liabilities. The significant estimates made by the management in the application of the Group’s accounting policies and the inherent considerable uncertainty of such estimates used in the preparation of the condensed interim report are identical to those used in the preparation of the annual report as at 31 December 2009.

The Group’s significant risks and the external elements which may affect the Group are described in detail in the 2009 Annual Report.

A group of minority shareholders ("Foreningen af Minoritetsaktionærer i bankTrelleborg") has filed a class action regarding the legality of the compulsory redemption against Fonden for bankTrelleborg, Sydbank and the Danish Financial Supervisory Authority. In continuation of the compulsory redemption of the shares in bankTrelleborg, the shares were priced by appraisers in accordance with section 144 (4) of the Danish Financial Business Act. A few shareholders have brought the findings of the appraisers before the courts as regards Fonden for bankTrelleborg and Sydbank.

Notes

Note 18 – continued

Moreover, in 2009 the group of minority shareholders filed an action against Sydbank regarding an inadequate prospectus in connection with the conversion of sparTrelleborg to bankTrelleborg.

In addition, the Group is party to a number of legal actions. These actions are under continuous review and the necessary provisions made are based on an assessment of the risk of loss. Pending legal actions are not expected to have any significant impact on the financial position of the Group.

Sydbank and the majority of Danish banks are participating in the government guarantee scheme which was adopted by the Danish parliament on 10 October 2008. The scheme extends from 5 October 2008 to 30 September 2010 and involves an unconditional government guarantee for the obligations of Danish banks, except for subordinated capital and covered bonds.
